The Intimidator®

Line Of Security Products

McGard's Intimidator™ line of security products is a family of security locks that are superior to any other mechanical theft device on the market. The McGard locking pattern technology is unique in the industry. Intimidator security products meet a wide variety of security needs, from the simplest theft prevention requirement to the highest security situation. The McGard Quality Management System is ISO 9001 certified and all our products are designed and manufactured by McGard in the USA.

The Better Way to Limit Manhole Access

The ManLock

- Chrome plated or stainless steel lock to resist corrosion
- Heat treated to 150,000psi minimum tensile strength
- High security
- Controlled access using McGard unique keys
- Can be retrofitted to existing cast iron cover applications
- New covers can be made at the foundry to easily accept our locks
- Non-corrosive protective caps
- Consult McGard for application information

Standard Cast Iron
Manhole/Grate

Steel Access Panel/
Grate/Vault

The DuraShield® Manhole Lock

- Strong and durable security prevents unauthorized access
- Stainless steel construction
- Multiple security points
- Retrofit to existing frame
- Lightweight, easy to handle and transport
- Easily installed in seconds
- Installed & removed without bending over
- Requires registered T-Key to unlock
- Same key can be used with other McGard manhole security products
- Allows draining and venting
