The Intimidator[®]

Line Of Security Products

McGard's Intimidator™ line of security products is a family of security locks that are superior to any other mechanical theft device on the market. The McGard locking pattern technology is unique in the industry. Intimidator security products meet a wide variety of security needs, from the simplest theft prevention requirement to the highest security situation. The McGard Quality Management System is ISO 9001 certified and all our products are designed and manufactured by McGard in the USA.
